Adopted Rules of the Florida Bred Foal Program

Objectives:

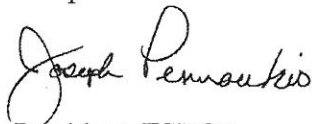

1. To sustain the Florida Stakes program with a competitive pool of eligibles and to attract broadbased participation.
2. To attract a desirable group of mares to enable future breeding to Florida stallions.

Florida Bred Requirements for Non-Florida sired foals

To achieve Florida Bred status by Non-Florida sired foals, all three of the following criteria must be met:

- A. Dam of foal must be in Florida at time of foaling. Situs of foaling shall be determined exclusively by certificate of registration, designated place of foaling on the U.S.T.A. registration.
- B. Dam of foal must be bred back to a Florida sire, registered with FSBOA, in season of foaling.
 1. Required proof shall be a copy of executed contract to breed to a registered Florida sire during current breeding season
 2. If mare is owned or controlled by the owner of the Florida sire, a copy of the Florida sire's U.S. T.A. Report of Mares Bred indicating the dam was bred to a registered Florida sire will suffice
 3. Mare may not be presented to, contracted to, or bred to any sire not standing in Florida during the breeding season of foaling
 4. In the event a dam foals after June 25 of the 2017 season and is unable to be booked and presented to a stallion for the current season, (due to close of breeding shed), the dam must breed to a Florida sire in the subsequent season to remain eligible.
- C. The following must be submitted to FSBOA office by August 15th of the year of foaling to register as Florida Bred. Included must be:
 1. Copy of registration indicating place of foaling as Florida
 2. Copy of breeding contract or statement of stallion owner indicating mare was bred back to Florida sire
 3. Application fee of \$100.00
 4. If August 15th deadline is missed, a late registration is permitted until December 31 of the year of foaling, together with a late fee of \$500.00.

Adopted on December 1, 2015

President, FSBOA
